

LOWELL CARVED

Bold colors and hand-carved details make the Lowell Carved collection a welcoming and stylish addition to any home. Contemporary abstract designs and geometric shapes are enhanced by the depth of a soft, multidimensional pile that's both visually appealing and soft to the touch, allowing you to offer a touch of modern luxury and compelling dimension to a wide range of customer groups. Because these rugs are long-lasting and easy to clean, customers can enjoy their newly decorated space without fear of staining or fading, even in the most high-traffic or spill-prone areas of their home.

- Polypropylene
- 8 Colors
